

BRITTON SMITH

britton.j.smith@proton.me

Professional Summary

Cybersecurity student and military veteran pursuing a Cyber Security Specialist degree at Ivy Tech Community College. Holder of a Certificate in Business Information Technology, Cisco CCNA: Introduction to Networks credential, and Commandant's List distinction.

Military Service

Army National Guard (2006–2014); Operation Iraqi Freedom (2008–2009)

Commandant's List Recipient

Maintained a class rating of 95% or higher across academic performance, physical training evaluations, and company duty performance.

EDUCATION & CREDENTIALS

Certificate in Business Information Technology
Ivy Tech Community College
Awarded May 2026

CCNA: Introduction to Networks
Cisco Networking Academy / Ivy Tech Community College
Issued August 14, 2025
70 Hours of Instruction

Ivy Tech Community College
Cyber Security Specialist
January 2023 – Present

CORE COMPETENCIES

Regulatory Compliance • Technical Documentation • Risk Assessment • Operational Planning • Time Management
Customer Service • Stakeholder Communication • Problem Solving • Independent Decision-Making • Process Adherence

CYBERSECURITY LABORATORY EXPERIENCE

Hands-on experience with Wireshark, pfSense, Linux administration, wireless security analysis, password auditing, vulnerability assessment, and technical security documentation.

TECHNICAL PROJECTS

Modular Server Platform (Python)

A server-based software platform designed to support expandable modules, command processing, and future client applications.

Core Database & Investment Analysis Platform (Python)

A database-driven platform for investment analysis, portfolio management, transaction tracking, and financial inventory accounting.

Code Navigator (Python) – In Development

A software development tool designed to assist with source code analysis, project navigation, and software engineering workflows.

CVE Research & Tracking Application (Python)

A cybersecurity application that retrieves live vulnerability intelligence from the National Vulnerability Database (NVD) to support CVE tracking, vulnerability analysis, and security information management.

Data Encryption Utility (Python) – In Development

A software utility focused on secure data storage, encryption concepts, and protected information management.

TECHNICAL SKILLS

Programming & Development

Python • JSON • Data Modeling • Software Architecture

Networking

TCP/IP Fundamentals • Cisco Networking Technologies • Network Infrastructure • Network Troubleshooting

Cybersecurity

Security Fundamentals • Network Security Concepts • Vulnerability Analysis • Security Documentation

Operating Systems

Linux Administration • Windows Systems

PROFESSIONAL EXPERIENCE

Commercial Transportation & Logistics Professional

2019 – Present

Employers:

- J.B. Hunt Transport Services
- R+L Carriers
- Marten Transport
- Schneider National

Highlights:

- Maintained compliance with federal transportation regulations and safety requirements
- Managed operational documentation, records, logs, and reporting requirements
- Coordinated customer-facing logistics operations under strict scheduling constraints
- Demonstrated strong time-management and operational planning skills while meeting critical delivery deadlines
- Exercised independent judgment and problem-solving in dynamic environments with minimal supervision
- Transported hazardous materials in accordance with federal regulatory requirements
